

St. Mary of Gostyn School

Welcome to PreKindergarten!

PreKindergarten (PreK) Information

Our St. Mary of Gostyn PreK program offers a hands-on early childhood curriculum designed to foster the development of the child as a whole. Our comprehensive program allows each child to develop cognitive, physical, spiritual and social skills in both small and large group activities.

Children learn through a play-based curriculum and through developmentally appropriate activities in areas of religion, mathematics, social studies, science, phonemic awareness, and creative arts, which encourages curiosity, cooperation and empathy.

PreKindergarten Goals

At SMG, we understand that:

1. Development and learning are connected and reflect patterns of growth.
2. Play promotes joyful learning that fosters self-regulation, language, cognitive and social skills.
3. Every child is different, and therefore learns differently.
4. Development and learning advance when children are challenged.
5. When used responsibly and intentionally, technology and interactive media can be valuable tools for supporting children's development and learning.

Classroom Management

Pre-K is an important time in the social and emotional development of your child. This year we are introduced to rules and procedures of a classroom, learning to treat others the way we want to be treated (the Golden Rule), problem solving, and figuring out ways to express ourselves when we are upset. This might be the first school experience for some of our Pre-K friends and others may have more experience in a classroom setting. In order to provide a positive classroom environment, we work on our choices and behavior all year following Jesus' teachings. We are going to learn about how God wants us to be friends to each other and how kindness is key.

Each child will have a sticker chart and will receive a sticker per day for good choices. Once their chart has 5 stickers, they will be able to pick a treat from the treat box! When their sticker chart is full, I will send it home for you to keep. If I have behavior concerns, I will contact you.

Contact Me

I truly believe that parents are their child's #1 supporter, and that we are a team working towards your child's success. If you ever have any questions or concerns about anything happening in our class, please do not hesitate to reach out!
